

JULIAN BRADLEY
WISCONSIN STATE SENATOR

August 10, 2026

Kathleen Teske
Department of Health and Human Services
Division of Quality Assurance
Bureau of Assisted Living

Dear Kathleen,

I am writing to follow up on my earlier email to emphasize the importance of giving careful consideration to the concerns raised by our constituents and the supporting evidence they have submitted regarding Legacy Recovery Center's application for a Community Based Residential Facility license at W332 S9291 Red Brae Drive in Mukwonago.

The documented history of Legacy Recovery Center's failure to meet operating standards, maintain adequate staffing, and ensure the safety of residents and the surrounding community is deeply concerning. Equally troubling is the extensive record of violations, fines, and licensing deficiencies documented by state and local governments, including instances in which the facility allegedly operated without the required licensure.

These concerns are further heightened by the proposed location of the facility within a rural residential neighborhood in the Town of Mukwonago.

Given this history, I respectfully urge the Department to conduct a thorough fit and qualified evaluation of this applicant. At a minimum, this record warrants significant caution in evaluating the application.

The documented pattern of violations and risks to public safety provides a compelling basis for denying the application.

Thank you.

Senator M. Julian Bradley

State Senator
28th Senate District
