Dear Kathleen,

I write to you today in regards to the Wisconsin application of Legacy Recovery Center in the 84th Assembly District.

As you may know, the individuals who are applying to open Legacy Recovery Center operate other treatment facilities in other states. The documented history of violations and threats to public safety in these other facilities provide Wisconsin with numerous examples that would cause extreme caution - if not outright rejection - of this application.

I fully support the goal of treatment and recovery for individuals in need of services, yet a business that is not fit, nor qualified to handle the responsibility of this work will only set back this goal. I am asking the Department to review this application with all due diligence and thank you in advance for doing so. Please do not hesitate to contact me with any questions or concerns.

Thank you.
